Trail Safety

Many bike trails in Northeast Iowa are multi-use trails and you may encounter walkers, joggers, horseback riders, and pets. Some trails have little or no cell phone service, travel along shared roadways and through towns, or may have been modified since the creation of this map. Please follow these guidelines to ensure a safe and enjoyable experience for all trail users.

1) Share the Trail. Slow down and be courteous of all users. Bikes yield to horses and pedestrians. 2) Ride Right. Ride on the right and pass on the left.

3) Communicate. Signal when you approach others or are turning. 4) Stay Aware. Keep your eyes and ears open for other trail

5) Make a Plan. Know your route and tell others where you are going and when you will be back.

• Leave No Trace. Trash belongs in the garbage.

6) Follow the Signs. Pay attention to trail signs and directions installed by trail managers.

7) Use Safe Equipment. Wear a helmet and make sure your Calmar Train Depot: Restored train depot on National bike is working properly.
